AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the numerous medicines extant, (and some them valuable) for the cure of pulmonary complaints, nothing has ever been found which could compare in its effects with this Preparation. Others cure some times, out of all times and in all diseases of the lungs or throat, the most whom medicine can give relief, this will do it. It is pleasant to take, and perfectly safe in accordance with the directions. We do not advertise for the information of those that have tried it but those who have not. Families who have known its value will not be without it, and its timely use, they are secure from the dangerous consequences of Coughs and Colds which, neglected, open into fatal consumption.

The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September 1847, also, the Medals of the three great Institutes of Art, in this country, also the Diploma of the Ohio Institute at Cincinnati, has been given to the Cherry Pectoral, by their Government in consideration of its extraordinary excellence and usefulness in curing affections of the Lungs and Throat.

Read the following opinion founded on the long experience of the eminent Physician of the Port and City of

ST. JOHNS, May 8, 1851.

Dr J. C. Ayer—

Five years trial of your CHERRY PECTORAL in my practice, has proven what I foresaw from its composition, that it must be true, that it eradicates and cures the colds and coughs to which we, in this section, are peculiarly liable.

I think its equal has not yet been discovered, nor do I know how a better remedy can be made for the diseases of the Throat and Lungs.

J. J. BURTON, M. D. P. R. S.

See what it has done—on a wasted constitution, not given in the following cases, but a thousand more:

Shoshoney, Jan. 24th, 1851.

Dr Ayer—In the month of July last I was attacked by a lung Diarrhea in the mines of California. I returned to San Francisco in hopes of receiving benefit from a change of climate and diet. My Diarrhea ceased, but was followed by a severe cough—and much to my friends, I finally settled for home but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At this time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from its use—You will not believe these facts if I not regard it my duty to state to the afflicted, through you, that my health, in the space of eight months, is fully restored. I attribute it to the use of your Cherry Pectoral.

Yours truly, &c. WILLIAM W. SMITH.

WASHINGTON, PA., April 12, 1848.

DEAR SIR: Feeling that I have been spared from a premature grave, through your instrumentality by the providence of God, I will take the liberty to express to you my grat tude.

A cough and the alarming symptoms of Consumption had reduced me too low to leave me anything like hope, when my physician brought me a bottle of your "Pectoral." It seemed to afford immediate relief, and now in a few weeks time has restored me to sound health.

It will do for others what it has for me, you are certainly one of the benefactors of mankind.

Sincerely wishing your blessing, I am

Very respectfully yours,

JOHN F. CLARKE, Rector of St. Peter's Church.

With such assurance and from such men, no stronger proof can be adduced unless it be from its effects upon trial.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 8th June, 1851.

To Professor Holloway.

SIR,—Your Pills and Ointment have stood the highest on my list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desired me to tell you the particulars of her case: She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation so severely, that doubts were entertained of her not being able to bear up under it. Fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Walsh.

Margaret M'Quinnigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time, they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement—August 2d, 1851.

To Professor Holloway.

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by shortness of breath, that prevented me from walking a mile. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before. (Signed)

Lesage's Specific.

NEVER *failing remedy for thoroughly eradicating* diseases *of the Urinary Organs*, such as Gonnorrhea, Gleet, Weakness, Stricture, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully call on those troubled with the above annoying complaints to beware of those curse-every things, which unprincipled individuals, without the slightest knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent their unsolicited certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make try again—Lesage's Specific has been the remedy depended on by every class, the scrivener, the lawyer, the mechanic, the freeman, and the dashing officer have all tried it and found it truly the good Samaritan in the hour of trouble.

Dr. Darby annexes extracts from some of his certificates:

U. S. Frigate Cumberland, 1851. I contracted a disease at Naples, and tried all the remedies suggested by the most experienced Surgeons without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.

Louisville, Ky.—I have much pleasure in stating that Lesage's Specific has cured me of a gleet of 36 months duration.—H. C. D.

Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint six days, and shall not fail to recommend you, should I know of any troubled as I was.—J. Brown.

A Literary Bell on its Travels.

As every one is aware Belles of various delicate and beautiful moulds, with exquisite music in their tongues, but yet with no perceptible shade of brass in their composition—are on their travels at the present fashionable season; but those masculine ringing instruments, which swing in cupolas, do not often take the hint—even when one has slyly told the bell man, and the bell man loudly tolled the bell—and, stepping down from their lofty retreats, set out for a trip over the country. But we have just heard of an occurrence which is nearly as wonderful as would be a feat of the kind by one of the noisy, brazen, tintinnabulary pilgrims in the case supposed. It appears that a few days since, certain re-*bell*-ious students of Waterville College, made an uncomonious night call upon the venerable Mr. Bell, who had so long sat upon his throne—perched on the very summit of that institution—or more correctly, so much of it as may be embraced in the bricks and mortar comprising the edifice—in other words, unshipped or took down from its fastenings, the old college bell, boxed it up and sent it to the students of Bowdoin, with their compliments—that is, enclosing in the box a card with the words "From the students of Waterville, to those of Bowdoin—please exchange." President Woods of the latter Institution, being notified of the arrival of the box, had it opened at once, and not noticing the card, concluded that some benevolent gentleman, who was desirous of having his good deeds kept from the knowledge of the world, had made a present of a new bell to his Alma-mater. The venerable Prexes was, of course, highly gratified, and was on the point of laying the matter before the corporation, have the bell swung at once, and some public acknowledgement made to the unknown benefactor, when a trifling incident prevented. It seems that the Bowdoin students got hold of the card, if not the bell—and very soon getting wind of the place where the brazen-faced visitor—the now tongue-tied old sleep waker and dinner-reminder from Waterville—had taken his lodgings—broke poll-mell into his quarters, and "hustled him out." Immediately clapping Mr. Bell into another box—and telling him to hold his tongue—they send him to Cambridge, addressed "to the students of Harvard."—Whether he received fair treatment, during his brief sojourn there, as he arrived during the vacation, we are unable to say—but, he was soon boxed up again and sent to Yale College, where he arrived in good condition a day or two since. We have no account of the ceremonies of his reception there, but it is supposed that Mr. Bell was immediately boxed and packed off to Dartmouth College, and that from that place he will take a pilgrimage to all the literary institutions in the Middle and Western States. Being in old customer of most of the railroads, he probably has a

WHIG MASS CONVENTION.

The Whigs of the Representative Class composed of the towns of Calais, Harrington, and Lubec, will hold a Mass Convention at the School House in South Lubec Village, on SATURDAY, the 21st inst., at 10 o'clock A. Per order of the several town Committees.

Aug. 10, 1852.

☞ The three Eastern Companies here, have for two or three days past devoted their attentions in a large and liberal manner to an Engine Company from Waltham, Mass., composed of some twenty persons. A few days previously, they entertained in a very handsome manner, a company of Ex-Firemen from Boston.

The facts probably are that, both of these companies intended to make a visit to our city, for their own pleasure, and without intending to tax the hospitality of any one, but ordinary usage and a desire on the part of our young men connected with the Fire Department, to make a demonstration of their hospitality, rallied them to profer the rich entertainments they lavished upon these companies on their independent visits to our city.

It may not be out of place for us, with the kindest feelings to all concerned, to improve this occasion in making a few suggestions, as to the duties enjoined by hospitality.

The first and plain rule is this: that every fire company wishing to entertain visitors should have the right of selection and of course they should invite those they wish should become their guests. This will enable them to consult their own convenience and ability, and give them time for preparation. It necessarily follows from this rule that the companies here are under no proper obligation to entertain general visiters although they may come as firemen. And the propriety of this is further seen in the fact that if a fire company should invite guests to the extent of their ability, they would be placed in very embarrassed circumstances on the arrival of independent and uninvited visiters; and this is an embarrassment which no company would wish to impose, and some quasi fire companies who might wish to make an independent visit to our city might be deterred from doing so.

Again, if the obligation rested upon our fire department, to entertain all firemen visiters, the department here, would be compelled to hold themselves in readiness to answer what may very aptly be called a new sound of alarm, and thus be forever deterred from inviting such guests as they might wish to see and entertain.

The Fire Department here is a voluntary matter altogether, and it is composed mostly of young men who have neither the command of time or money sufficiently to enable them to engage extensively in expensive hospitable entertainments; and it is therefore the more important that they come practically to a full understanding of this whole matter.

All embarrassments are avoided by attending only to invited guests and allowing all other visiters to come and go at their pleasure.

☞ The British Admiralty have despatched a well appointed surveying ship and tender for the purpose of exploring the Java and China seas. A correspondent of the National Intelligencer adduces this fact as one that should have its influence with Congress in promptly providing for a like reconnoissance and exploration.

Scott and Jackson.

The substance of the correspondence between Gen. Scott and Gen. Jackson in 1817, touching an alleged declaration by the former in conversation, that the conduct of the latter had been mutinous in its character, has been already given. It will be remembered that Jackson wrote a long letter, which has been recently published, charging Gen. Scott with "insolence," &c., but containing no direct challenge to a duel—though the contrary has been stated. This correspondence took place in 1817, and the sequel is this. Five months afterwards, Gen. Scott and Gen. Jackson were both in Washington, when a reconciliation took place between them alike honorable to both. There had been a rumor, no doubt groundless, that Gen. Jackson would on meeting Gen. Scott, offer him some sort of indignity. When, therefore, they had been six days together at Washington, and often in the capital, in 1823, the following letter was written:

SCOTT TO JACKSON.

WASHINGTON, Dec. 11, 1823.

SIR—One portion of the American community has long attributed to you the most distinguished magnanimity, and the other portion the greatest desperation in your sentiments—am I to conclude that both are equally in error? I allude to circumstances that have transpired between us, and which need hereafter be recapitulated, and to the fact that I have been six days within your immediate vicinity without having attracted your notice. As this is the first time in my life that I have been within a hundred miles of you, and as it is barely possible that you may be ignorant of my presence, I beg leave to state that I shall not leave the District till the morning of the 15th inst.

I have the honor to be, sir,

Your most obedient servant,

WINFIELD SCOTT.

To Hon. Gen. A. Jackson, Senator, &c.

To this letter Gen. Jackson returned the following answer:

JACKSON TO SCOTT.

DECEMBER 21, 1823.

SIR—Your letter of the 11th has been received. Whether the world are correct or in error, as regards of my magnanimity is for those who decide. I am satisfied of one fact, that when you shall know my sentiments, you will not be displeased to further the opinion that anything like a "desperation in my sentiments" attaches to me.

Your letter is ambiguous, and, judging from occurrences heretofore, I take it for granted you wish to know if I take you to be a friendly party. I take you to be one friendly towards me, I take you to be one friendly towards the country, and I should be sorry any other than such be my opinion of you, or any other than such be my opinion of my part.

I have the honor to be,

Your most obedient,

A. JACKSON.

Among the many anecdotes of the Americans who have related in regard to this office.

On the night of the ninth after fighting all day with the enemy, and the night as dark and dreary as prospect of the morrow, Gen. Jackson, by a brother officer, who had come to charge the enemy in the morning, and send them all to hell, received the reply. "I don't know how Riley, but by ——, I have my pocket." At day break the white flag was seen emerging from the lines of the Mexican batteries, and eight hundred Mexicans laid down their arms, and the victory was won.

If we understand, the scheme aright, the American Company proposes to carry on the fisheries in British bottoms manned by Colonial fishermen, at an original outlay of some £20,000, N. S. currency.

A MAMMOTH PROJECT.—It is now understood that the construction of a carriage road to the top of Mount Washington, is not only feasible, but has actually been proposed for, and ample security offered to complete the same within eighteen months, at a cost which shall not exceed 1600 dollars per mile. The directors of the St. Lawrence and Atlantic Railroad Company, with great credit to themselves are now moving in the matter, and if they undertake it, it will be accomplished, and instead of three thousand, thirty thousand persons will visit the summit yearly.—Portland Advertiser.

Penobscot and Kennebec Rail Road.

The interest which the public have taken in this enterprise renders it the duty of the undersigned a majority of the Directors of said corporation, to make the following report of the late transactions in the board of Directors and in the Stockholders annual meeting, and also to state briefly the position and prospects of said corporation.

Previous to the Stockholders meeting on the 27th of July, the Directors were in session and during a discussion of the progress of the subscription and the prospects of the road, Messrs. Smith, Wood and Poor suggested the propriety of putting the road immediately under contract. Objections were made by the undersigned that the Stockholders who were then subscribing, to the books, were interested in that question, and should have an opportunity to act upon it by a Board of Directors to be chosen by themselves after the subscriptions were made up and become absolute. Mr. Smith then submitted in writing a proposition that the road be put under contract to Mr. Wood at the rate of $26,000 per mile. Six fifteenths of the sum to be paid in cash, four fifteenths in stock, and five fifteenths in the bonds of the road. This contract to embrace only the road bed and superstructure leaving for the company to provide for the right of way, Depots, Depot grounds fencing, way stations and equipments. Messrs. Wood, Smith and Poor urged upon the Directors the acceptance of this contract, stating as a reason that no stock would be taken in Portland unless the people there knew in advance what the road would cost. The undersigned believing that the price named in the proposed contract was about $6000 per mile, or $330,000 more than the road, bed and superstructure, ought to cost, declined according to the terms. They also declined for the additional reason that before the books were opened last spring for additional subscriptions, the Directors had an agreement and understanding among themselves which was made public by the President, and communicated to the new subscribers to the stock, that when the requisite amount of stock was subscribed on the new books to move the work forward, the old board would retire without compromitting the new stockholders by any contract made; leaving them to manage their own business by a Board of Directors, to be chosen by themselves first, however, exhonorating the original subscribers, Messrs. Wood and Smith from their liability for their subscriptions to the stock; and during the discussion which grew out of the proposition to make the contract, Mr. Fickering asked Mr. Wood if he did not agree with him to such an arrangement, to which Mr. Wood replied that he did, and gave no satisfactory reason for not complying with it. It became evident to the undersigned that Messrs. Wood, Smith and Poor did not intend to execute the aforesaid agreement, and they deemed it their duty, before they should be supplanted by a Board of Directors, who might execute the contract proposed by Mr. Smith, to protect the Stockholders who had subscribed under the above arrangement, and they accordingly voted to release all such subscriptions.

The subscriptions which were conditional then amounted to $311,000. Before this, however, was done, the undersigned proposed to carry the subscriptions to $600,000 within four weeks, or in the event of a failure to retire and let Messrs. Wood, Smith and Poor take the charter, and manage it to suit themselves. This proposition was rejected. The Directors meeting was adjourned and the stockholders meeting was opened, and the gentlemen whose names have been given to the public through the papers, were voted for by Messrs. Wood & Smith, each casting two thousand votes. Five of these gentlemen reside in Portland, one in Augusta, and one in Lewiston, and neither of them within twenty miles of the line of the road. It is however but justice to the gentlemen to say that we are well satisfied that, with one exception, they had not been consulted, and had no part in the transaction.

After this act was done, Mr. Fickering stated to Mr. Wood that he was bound to give an explanation to the public, and did not wish to misrepresent the transaction, therefore he wished him to answer the question, viz: If the Directors had complied and voted the contract would there have been any change made in the Direction of the Corporation? Mr. Wood replied, there would not.

After said vote was taken Mr. Smith moved an adjournment of the annual meeting to Portland, which was carried. Upon an examination of the stock books of the company it appears that neither of the gentlemen elected, except Mr. Wood, were stockholders, and therefore, by the charter and by-laws of the company, could not be elected Directors. The time and place for holding the annual meeting is fixed by the by-laws of the company, and the adjournment to Portland was not a legal adjournment. The charter of the company provides that the old board of Directors shall hold their places until a new board is chosen, and until a majority of them have accepted their office. Under these circumstances the old board of Directors are still in office, and will remain until they call a special meeting of the stockholders to fill the vacancies. Messrs. Moor and Appleton were appointed a committee, by a vote passed the 13th of May last, to open the books of subscription, and dispose of the stock not before subscribed for. That appointment is still in force, and will so remain, the by-laws having reposed in the Directors the power of disposing of the stock not subscribed for at the organization of the company. The committee have re-opened the books for subscription, and we appeal confidently to the citizens of Bangor, and to others interested, to come up to the work of carrying through this enterprize, and to take into their own hands the management of this future great avenue of business to and from our city.

The public who may subscribe, may be assured that their stock subscriptions will be passed into no hands that shall be hostile to their interests, and that before any contracts are made binding on the company, they shall have an opportunity of choosing their own board of directors.—We further state that our By-laws and records have been submitted to the examination of the best legal counsel in New England, and that the above courses adopted by us in accordance with their advice.

The undersigned have determined so far as it is in their power to press forward the subscriptions to the completion of the work, and in order to accomplish this end so desirable to all parties and interests, it is necessary that the former subscribers should not only renew their subscriptions, but increase them liberally, as all have already done to whom the books have been presented—and if the subscriptions are all renewed and the increased amount continued, we confidently assert, with the assurance we have from abroad, that a sufficient amount will be subscribed to build the road.

The Lobas Island Controversy—Mr. Webster's Opinion.

WASHINGTON, Aug. 11.

Capt. Jewett, of the barque Philonis, in behalf of himself and citizens of the United States, recently addressed a letter to Mr. Webster, inquiring whether citizens of the United States might take Guano, from the Lobas Islands, without infringing on the right of any nation, to which Mr. Webster, after a cabinet consultation, replied as follows:

DEPARTMENT OF STATE,
Washington, June 5, 1852.

Captain Jas. C. Jewett, Master of barque Philonis.

SIR—I have to acknowledge the receipt of your letter of the 2d inst., inquiring whether citizens of the United States can take guano from the Lobas Islands, which are situated near the coast of Peru, without infringing upon the rights of the citizens or subjects or government of any other nation. In reply I have to inform you that if those islands should lie within the distance of a marine league from the continent, or, if being further than that distance, should have been discovered and occupied by Spain or by Peru, the Peruvian government would have a right to exclude therefrom the vessels and citizens of other nations, except upon such conditions as it may think proper to prescribe. There can be no doubt that the title of Peru to the Chincha Islands, whence guano is now chiefly taken, is founded upon the basis of discovery and occupancy.

That article was taken from those islands and used as a manure by the Peruvians anterior to the conquest of Peru by Spain. It continued to be so taken and used throughout the Spanish dominions in that country, and this practice has been kept up to the present day. Although those islands are unmistakable, the custom of resorting to them from the neighboring continent for the purpose of procuring guano, may be said to have constituted such an occupancy of them as to give the sovereign of the continent a right of dominion over them, under the law of nations. This department, however, is not aware that the Lobas Islands were either discovered or occupied by Spain or Peru, or that the guano on them has ever been used for manure on the adjacent coast or elsewhere. It is certain, that the distance from the continent is five or six times greater than is necessary to make them a dependency thereof pursuant to public law. On the other hand, it is quite probable that Benj. Morrill, Jr., who, as master of the schr. Wasp, of New York, visited those islands in September, 1828, may justly claim to have been their discoverer. He gives a full account of them in a narrative published in New York in 1832.

Under these circumstances, it may be considered the duty of this Government to protect citizens of the United States, who may visit the Lobas Islands for the purpose of obtaining Guano.

This duty will be more apparent, when it is considered that the consumers of Chinco Island guano, in this country, might probably obtain it for half the price they now pay, were it not for the charges of the Peruvian Government.

I shall consequently communicate a copy of this letter to the Secretary of the Navy, and suggest that a vessel of war be ordered to repair to the Lobas Islands, for the purpose of protecting from molestation, any of our citizens who may wish to take guano from them.

Your obedient servant,

DANIEL WEBSTER.

P. S. It is considered important that this letter should be made public at present.

In consequence of this opinion, the Secretary of the Navy directed Commodore McCauley, of the Pacific squadron, to send a war vessel to those Islands, to protect the interests of American citizens who might be there.

The Government of Peru has lately, however, endeavored to give proof to the United States Government, that they have exercised long since rights of ownership of the Lobas Islands, thus changing the whole aspect of the case.

Under the guaranty of Mr. Webster's letter, some thirty vessels from the United States, principally from N. England and N. York, almost immediately sailed for the Lobas Islands, it being well understood that under Mr. Webster's recommendation, the Secretary of the Navy had ordered a vessel of war, under Commodore McCauley, of the Pacific station, to be placed on the ground. In accordance, with this, says the Journal of Commerce, we learn that the frigate Raritan sailed from Panama several weeks since, for the Galipagos, and thence for the Lobas Islands, where she must have arrived o'er the present date. Peru can bring no naval force sufficient to oppose her effectually, and therefore, if her commander is instructed to protect American vessels in loading and removing Guano, it will be done.

CONGRESS.

WASHINGTON, August 10.

In the Senate. Mr. Weller offered a resolution inquiring into the transfer of public monies in California. Laid over.

Mr. Toucey presented resolutions from the Legislature of Connecticut, sustaining the compromise measures. Read and appropriately referred.

Mr. Fish, from the Committee of Naval Affairs, to whom was referred several memorials asking for the establishment of a navy yard and dock on the Lake frontier, reported the same back and asked to be discharged.

Mr. Bright reported a bill for the construction of a national arsenal, and foundry at the falls of the Ohio river, in connection with a public canal for the use of the army and navy, trade and commerce, and for the supply of water power for manufacturing ordinance and arms for the use of the United States; also, a bill for the relinquishment to the State of Kentucky of the stock held by the United States in the Louisville and Portland Canal, with a view to making that canal free to navigation and commerce.

The consideration of the Indian appropriation bill was then resumed. Various amendments were adopted appropriating over $850,000. Without disposing of all the amendments the Senate adjourned.

In the House. The journal being read, the House took up the bill regulating the fees of judicial officers in various States.

After some little debate without coming to any definite conclusion, a message was received from the President, in relation to the Fishing difficulties, the substance of which, is the same as previously transmitted to the Senate.

On motion the House then went into a Committee of the Whole and took up for consideration, the Civil and Diplomatic bill.

Mr. Aikin rose to a question of privilege, and proceeded to notice a paragraph in a published speech of Mr. Durkee's, relative to a slave in Charleston, who it was said five or six years ago killed his master for trespassing on the chastity of his wife, and that on being taken to the scaffold, the sheriff felt so much sympathy for him that he could not hang him, nor could $1000 procure any of the crowd to perform that office, and therefore the negro was taken from the gallows; this was the substance of the objectionable paragraph.

Mr. Aiken said he had lived in Charleston all his life, and that such a case occurred he pronounced absolutely false. He then related a proceeding which took place twenty-six years ago, where a slave was convicted of arson, but being of a weak constitution, and considerably prostrated in view of death, there was naturally much sympathy expressed for him, and the person whose duty it was to execute the prisoner also being feeble, offered a reward of $1000 to any one in the crowd who would perform the office, but no one accepted.

The slave was then remanded, and the result was, his punishment was commuted to transportation by the Governor. Whoever gave the information referred to, Mr. Aiken said, had told a deliberate falsehood. The man should not sit on this floor, who is not aware of the dignity of his position, and such a creature is the person who made to him this narrative.

An amendment was adopted, appropriating $300,000 for the establishment of a branch mint at San Francisco.

Mr. Gentry moved an amendment proposing to materially raise the salaries of clerks, &c., in the employment of the Government, which was disagreed to, but not disposed of, when the committee rose and the House adjourned.

WASHINGTON, August 11.

In the Senate. Mr. Bradbury made an explanation denying that he prepared an amendment to the Census Bill, out of which the difficulty respecting the salary of the Census Superintendent has arisen.

Mr. Davis reported back the House bill, known as the River and Harbor Bill, with sundry amendments.

Mr. Broadhead reported a bill for the relief of the heirs of Herman Blennerhassett, and said that when the bill came up he would ask the indulgence of the Senate to vindicate the truth of history in one or two particulars.

A resolution to pay to the widow of Noah Hanson, deceased, the arrears of his salary as messenger of the Senate, was agreed to.

Mr. Badger moved to take up his resolution to amend the 30th rule by striking out the proviso that no amendment shall be offered to the general appropriation bill having for its object the payment of private claims.

The House resumed the consideration of the bill regulating the costs and fees of Attorneys, Marshals and Clerks in the U. S. Circuit and District Courts.

Mr. McLanahan answered the objections which had been made against the bill, and said that by an estimate of the department of the interior, it would, if passed, save the Government $150,000, and double that amount to the people.

He said the bill proposed to equalize fees and cost throughout the country. Having spent nine months of this session, he called on gentlemen to pass this measure of reform and lay it at the feet of their constituents as an offering for the past.

Mr. Letcher moved to lay the bill on the table. Lost. Yeas 40; nays 112.

Pending the question on adjourning the bill on the third reading, the morning hour expired.

Messrs. Brooks and Briggs presented memorials asking the passage of a law protecting the lives on steamers; referred to Committee on Commerce.

The House went into Committee of the whole on the general appropriation bill.

BANGOR AIR-TIGHT COOKING STOVE!

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers' Messrs Eastes & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the Our State, Bay State, Empire State, Granite State, State of Maine, &c., All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forrest Queen &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

is acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S WOOD FURNACE!

Manufactured entirely of Cast Iron is the most durable and economical Wood Furnace to be had.

—ALSO—

Lumbar's Kennebec Wood Furnace, of which I set the past season 10 or 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary sized dwelling house.

Any of the above Furnaces set in the best and most approved manner at short notice.

25,000 Sold per Year!

The Unsurpassed and Unsurpassable
Bay State Stove,
OF SIX SIZES, of heavy and smooth castings—price from $15 to $50—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., or in durability and economy—may be had as heretofore at the well known and long established

Stove, Furnace and Range DEPOT,

Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF

N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning. Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them, AS I HAVE THEM ON HAND!!

A CHALLENGE OF $50

is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, for which I am sole Agent, cannot be produced, which will compare with the 50 I now have on hand in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisite.

☞ The public are especially requested not to mistake a Stove called the "IMPROVED BAY STATE," which is a cheaper and inferior article, of thinner and less durable castings, and which is sometimes advertised without the word "improved" as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* than formerly, and them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their invention, and if consulting in respect to them; *matters in general, of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen years* in practise, an extensive collection of rare works, (between 3 & 4,000 in mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

BOSTON, January 7, 1835.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J. F. Foster, to supply the deficiency occasioned by the death of Mr. Heath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M. D. Boston.

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses, for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, exposes to all our experience goes, I any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of the eminent surgeon, Dr. J. C. Warren, as a sufficient guaranty for all who may favor Mr F., that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.
